Document Certification/Notarization for Foreign Use

Attestation of Documents is the normal verification that we do. However, because this one involves Verification of Documents for foreign use, a procedure with strict legal technicalities is involved.

Countries usually follow the October 5, 1961, Hague Convention that requires countries to issue a Notary Verification for local documents to be used in foreign countries. However, Kenya is not a signatory of this convention. Due to this, we do what is called Legalization of Documents. This process involves a procedure that will be summarized below.

1. Documents to be legalized are presented to the Notary Public, otherwise known as Commissioner of Oaths.
2. Commissioner of Oaths places a seal on the Documents and Sign.
3. Commissioner of Oaths is required to obtain a letter from the High Court of Kenya stating that he/she is recognized as a Commissioner of Oaths in Kenya.
4. The Notarized/Certified Documents are taken to the ministry of Foreign Affairs (Huduma Centre). The Foreign Affairs Ministry should issue a letter. This should take four (4) working days or a timeline communicated by the ministry.
5. The Notarized/Certified Documents are taken to the embassy. This takes 3 to 5 working days. Communication with individual Embassies should be made in order to confirm the correct timelines.
